

Scaramutti Pablo Martin

Multimedia Designer / Front-end Web Developer

Hi! I'm a web developer based in La Plata, Argentina. I've started my journey on development 6 years ago creating an interesting toolbox that helps me to ideate, design and deploy solutions to facilitate people's daily tasks.

I've learnt a lot of things in my 3 years working as a front-end developer full time on all sizes teams. I enjoy working in teams, learning from my pairs and sharing experiences with them. I'm very curious and proactive, I really like to take responsibility of the task and take them to the users in the more effective and efficient way.

I love taking new challenges, problem solving and improving people's lives with tech.

I'm currently working on a well known tech consultant provider called Globant and I'm searching new experiences to keep learning and provide new ideas and value.
